## **Sheila Ford**

Upper Marlboro

The service I received from Lambright was exceptional. The sales representative and service technicians were professional and thorough. When follow-up service was necessary their response was immediate. The receptionist had a welcoming and pleasant manner. I had the pleasure of having the owner respond to conduct an inspection when technicians were not available. That's how to run a business. My highest recommendation to this company. Anyone contracting with Lambright will be well served.

Ianham

I had a few questions about a service that I was trying to get for my house. And the young lady on the phone let me know she was new. And instead of saying "I don't know", she would put me on hold and get the correct information. She was very polite, helpful, and I will definitely be using your services next week. It was between you guys and Orkin. She sold me on Lambright pest control, I didn't know about the free inspection as well.

We have been dealing with Lambright Pest Control for a number of years, and the services are usually exemplary...however, this last visit from Technician Tylando proved to be out of the ordinary.

While he was going through the house, he came upon a situation in the basement that required immediate attention. The expansion tank on my water heater was leaking profusely and the furnace room was flooded, with the water threatening the finished area of the basement.

Tylando notified my wife and then pitched right in helping her vacuum up and clear up the water that had already leaked and to capture the water still leaking.

His professional demeanor and gracious consideration are sincerely appreciated. Thanks to the Lambright Team!

Capitol Heights, Md

Excellent job. Tyrone and Wayne both deserve a walk on the red carpet. Professional, thoroughness, courteousness and complete knowledge of the position demands are areas they both excel. Kudos make sure they are made aware of my comments about my observations. Thanks in advance.

Quick response, and fantastic customer service. Didn't even realize how bad a wasp problem we had. Very happy with their service.

**Alfred Coates Jr**

Upper Marlboro

Great Job. Tech arrive on time and did a professional job. Let's see if it works only in day 2. So far no roaches. I have scheduled a monthly pest control. So far so good.

Thank you :-)

Largo, MD

Mr. Lambright did our quarterly maintenance and was very thorough. He noticed a couple of holes outside the house where mice could find their way

inside and fixed it to keep those rascals out of our house. Thanks for a good job.

My first contact with Lambright Pest Control was in August 2013. Tyrone (the owner) did my pre-purchase home inspection. Since that first visit, I have continued to use them. The customer service is awesome, the service is affordable and every employee, especially Gary has been a top-tier professional. If I forget to schedule they always give me a reminder call. My home has been pest free and I have been extremely happy.

**Melissa M.**

Washington, DC

I started to employ Lambright Pest Control after I had not great service from Orkin and a horrible experience with Connors. Tyrone is the owner of the company. He's respectful, polite, and always calls to schedule the quarterly appointment with me. Whereas, Orkin tried to keep the same day on the calendar every 3 months, which doesn't fit in with my job. I need to always ensure that I can be home, so Tyrone is a better fit. As for pests, I have none. And, if I do get some after they come to my home, they guarantee a free, hassle-free follow-up visit.

Washington, DC

Mr. Lambright is a true professional, as well as polite and efficient. He listened carefully to all of my concerns and took time to answer my questions, explain how to resolve issues of pesky bugs and mice. In addition, I had outside traps placed in my yard because I had observed rats in my alley and from neighboring properties. When I had to have him return he responded promptly and offered resolutions to help resolve the mouse problem I was having. He saved me from incurring additional costs to have someone from another trade come in to plug a hole. What a relief and the cost for his services were well worth it!

A grateful customer: I.Kellogg, NE DC

Washington

We have used Lambright Pest Control since April of 2016. From the start, they were punctual, professional, friendly and have been responsive to all of our pest control needs. They have performed termite inspections, bee removal, quarterly service both inside and outside, and they have treated our property for snakes.

Lambright Pest Control responds promptly when problems arise. We are happy to use their services.

Hyattsville, MD

Summer 2016 for me was the summer of little black ants! These critters invaded my bathroom after a plumbing leak and would not leave. I resorted to self-help, trying the popular "T" product sold at home improvement stores, and it was not effective. So, I found Lambright Pest Control online and gave them a call. Mr. Lambright did my service and I AM SO HAPPY! Being ant free feels so good and I highly recommend this company.

Emma & Alain Toussaint

Capitol Heights, MD

I love this company and wish they did more than pest control. They are efficient, respectful and reasonable. Jasmine is polite and friendly every time she answers the phones. They have a quick turnaround time and usually can get someone out to you the same day for emergencies. I would highly recommend them and I'm proud to support them. Luckiest google search in a while! Keep up the good work Lampbright.

Capitol Heights, MD

Lambright Pest Control called back quickly and was able to come to my home at a time that was convenient for me. Both technicians (for the initial and 2 week follow up) were polite, efficient, and answered all my questions. Looking forward to continuing to see how their work turns out. So far so good though!
